## SUMMARY

Having recently completed an immersive 12-week, full-time coding bootcamp in Durham, North Carolina, I am very eager and excited to put my skills to the test. The experience taught me to think like a programmer in a collaborative, open source environment and provided a solid foundation for continued growth as a front-end developer. Creating the experiences that users see and interact with while, at the same time delivering it in the most efficient means possible is what I take most pride in.

## PROJECT EXPERIENCE

Foodstre.am https://github.com/foodstream

- A Single Page App built with AngularJS for people who believe edible food should be eaten
- Designed with the intention of connecting parties with a surplus of food/produce with those that can use it so not to let it go to waste.
